

THE HICKMAN COURIER.

HICKMAN, KY.

FRIDAY, 1 : 1 MARCH 20, 1891.

FOR STATE SENATOR.

We are authorized to announce the Hon. HENRY GEORGE, of Greece county, as a candidate to represent the 1st district, at the next State election, subject to the action of the Democratic party.

A year ago Thos. B. Reed was a Presidential possibility. To-day he is as dead as an ex-Speaker Kefauver.

Newsboys who were deferred in going to Oklahoma by smooth-tongued land agents are returning to their Southern homes in large numbers. They found once more that there is no room in the North for the black man.

The son of Senator Hearst, who has made such a notorious success of his San Francisco newspaper, proposes to start a daily paper in New York. His father left him \$500,000 and with it he ought to be able to establish a paper.

Evangelists like the lynching of the Mafia crowd in New Orleans naturally lead to much talk and often unwarranted and often untrue statements. The men who composed the mob had no race prejudice. They simply wanted to prevent the further continuance of organized assassination.

THE MAN MACHENO, one of the Italians who was killed in the mob in New Orleans, last Saturday, and who was regarded as the chief of the conspirators, was brought about the death of Hennessey, was an immensely wealthy man, and practically controlled the fruit trade of New Orleans.

The Legislature of Indiana proposes to make it hard for traitors to exist in the State. A bill has been introduced making all combinations to decrease competition, to raise prices of limit production, criminal combinations to defraud, punishable by \$100 to \$5000 and two to five years imprisonment. Every stockholder is to be held as a criminal in the case of a conspirator, the charter is to be forfeited, and civil damages to the amount of double the injury inflicted by a trust on a citizen's business can be recovered.

A prominent physician of Reading, Pa., is engaged in a remarkable and interesting experiment. It is, in fact, the elimination of the color from the skin of negroes and white skin. So far the experiments have been perfectly satisfactory. Skin taken from the persons of two negroes and grafted upon the limb of a white man turned out to be white in a week. If further trials bear out the conclusion of this operation the doctor will have solved a problem about solved, for by simply getting his hands upon the body of a Caucasian any negro can have a perfectly white skin.

There is a bill in the next Congress touching the tariff making it impossible for a general bill like the Mills bill, for instance, but to pass several bills through the House. Representatives reducing duties on articles on the free list, some of which reductions and repeals of duty could be carried in the Senate. The idea is to secure such reductions as can be passed through the Senate, and then to carry to the country on a tariff bill, at least until the attempt should have been made to reduce the duties on certain articles of general consumption.

The McKinley bill contains a provision that reduces the tariff on sugar two cents a pound on and after the 1st day of April. As a result of this reduction the whole country is busy taking orders for sugar from their friends and acquaintances. A tariff of two cents a pound has reduced the price of sugar two cents a pound. If this does not convince the people that the tariff is a tax and that by lowering the tariff you lower the price of the sugar, nothing will. If reducing the tariff has reduced the price of sugar, would not reducing the price of clothing, shoes, blankets and hundreds of other articles that are necessities of the people? The McKinley bill has given a practical object lesson to the people that the tariff has been increased, the price has gone up, and on sugar, where the tariff has been decreased, the price has gone down. Thanks to Mr. McKinley and the Republican party for the practical education they have given the people on this question. They will emphasize their instruction in 1892 in no uncertain way.

SENATORIAL MURDER.

Fulton, Ky., March 14. (Special.)—A thrilling sensational murder occurred in this city to-day. John Hebrun, formerly a ticket agent on the Illinois Central railroad at Jackson, Tenn., committed suicide in a most horrible manner. Just before noon he threw himself under a moving freight train at the crossing, in the presence of many spectators. Several cars passed over his body, crushing and mangleing it in a fearful manner. The body was battered with his blood, and the bystanders were simply paralyzed with horror, so sudden and unexpected was the act. Death must have been instantaneous. The unfortunate man had recently lost his wife, and it is supposed that the shock and the loss was the result of grief and despondency. Hebrun belonged to one of the best families in Georgia.

THE MAN MACHENO.

Saturday, May 2nd, 1891.

There are thousands of Democrats, not farmers, in Kentucky, who earnestly sympathize with the general object and purposes of the Farmers' movement, known under the names of Alliance, Wheel, P. M. B. A. S., etc., and are willing to cooperate with them toward securing certain reforms, State and National, but will only act with them inside the Democratic party; and since the Alliance members of this section are Democrats and assert their purpose to accomplish the same ends by voting the Democratic ticket.

Therefore, all their aim in mind that the mass meeting of the Democrats of Fulton county is to be held at the court house in Hickman, on Saturday, May 2nd, 1891, to instruct delegates to the State Convention to nominate a Democratic candidate for governor and other State officers.

The Governor asserts that a mass meeting of the county seat was ordered by the State Committee, because of the fact that the primary election was held in the county seat, and that the State Convention to nominate a Democratic candidate for governor and other State officers.

The Legislature of Indiana proposes to make it hard for traitors to exist in the State. A bill has been introduced making all combinations to decrease competition, to raise prices of limit production, criminal combinations to defraud, punishable by \$100 to \$5000 and two to five years imprisonment. THE NEW ORLEANS MOB.

The work of the mob in New Orleans on Saturday last carries with it a great and serious lesson to hundreds of landless owners of the City of New Orleans, or the State of Louisiana. Whenever the killings and murders have been frequent, and from any cause whatsoever the guilty have escaped, the vast body of citizenship as well as of honor, are naturally very indignant, and will possibly push the Italian government to stirring up a great commotion, but the worst that will come of it will be a bill of damages to the extent of several millions of dollars to help out the Italian treasury, and probably the widows and children of the men killed by the mob may get some of it. But there will be no war, for there is no cause. The men murdered in New Orleans were not slain because they were Italian, or because they were of any race or national prejudice, and if they had been the United States as a Government had no part in it. They were killed because they were men, but if they were Italian men they were killed by the mob, which leaves it at the feet of individuals and in no sense a national affair.

Foreigners, subject of other countries, have been killed in every city of the United States, and frequently killed by whole sale by mobs, and yet no war is anticipated. In the Louisville killing, the Irish and German were killed by the mob, and as it was in New York, Philadelphia and other cities, two ears ago the Chinese were butchered like so many hogs, and the Chinese government had to pay the Chinese government for their pretty high, but there was no war. Hence, the opinion that there will be no war with Italy.

If it be a fact, and can be proved, that the Mafia association actually exists in New Orleans, and there appear to doubt of it, the Italian world, including the Italian government, will rejoice at their extermination, by any means possible, but the Italian government, itself, has been putting this society without mercy for years. Besides, if it should develop that the Italians killed were subjects of this country, citizens of Louisiana, as some claim they were, course all complaint upon the part of the Italian government, ends.

WHAT THE MAFIA IS. The Mafia is a Sicilian organization, and in that country is a great aggregation of all the criminal classes on the island. It corresponds with the Camorra of Naples. The name "Mafia" has its origin in the fact that a conspiracy of persons formed in 1860 by a Sicilian dramatist, named "Mafia," and the name is meaningless, a sort of person slang used in the Sicilian prisons expressive of sympathy for the prisoners, whose names will be made between warblers and prisoners were to keep order and levy blackmail on the weaker inmates, the jailers sharing in the profits.

WAR WITH ITALY.

The New Orleans affair gives some talk as to war probabilities with Italy. The Italian government has asked of the United States an explanation as to the protection of Italians in this country, and Secretary Blaine has addressed to the Governor of Louisiana a communication of the same nature. The Italians in this country, as well as of honor, are naturally very indignant, and will possibly push the Italian government to stirring up a great commotion, but the worst that will come of it will be a bill of damages to the extent of several millions of dollars to help out the Italian treasury, and probably the widows and children of the men killed by the mob may get some of it.
